A TWISTING TORNADO DAMAGES ST. LOUIS

The Property Loss Will be Quarter of a
Million Dollars.

One Person Killed and Several Injured—Many Peo-
ple at World's Fair Frightened.

CONSTERNATION CREATED FOR A SHORT TIME

St. Louis, Aug. 20.—The property loss by cyclone last night is estimated at a quarter of a million dollars.

The tornado was of small proportions, but the extreme fury it swept down upon the residence portion of North St. Louis, resulting in the death of one person.

The dead: JOHN ELLINGTON, Partial list of injured: Jacob Harmsen, shoulder dislocated. Wm. Linham, cut. Edward Papison, badly cut. Gritwood Powinski, burned by live wire, seriously.

Wm. Ditchkauer, leg and arm broken. Wm. Fouché, leg broken. Herman Sauerwine, aged 10, arm broken and crushed; probably will die. Wm. Bigger, bruised. W. H. Largent, cut and bruised. W. A. Sommers, bruised. W. Fricke, scalp wound.

Six employees in Niedringhaus' Rolling Mill, not seriously; names unknown. ALL GETTING ALONG WELL.

A shower passed over St. Louis early in the day, but there had been no rain in North St. Louis. The sky had cleared and the atmosphere had become very murky and hot when citizens in North St. Louis noticed a dark cloud approaching from the southwest.

Suddenly, without the slightest premonition, an arm seemed to shoot to the ground like a gigantic cable, twisting and turning. At the foot of Bremen street and the river, considerable property along the river front was destroyed. The tornado jumped to about the middle of the river and encountered a ferry-boat, which was turned and tossed about, but was not sunk. Leaving the ferry-boat, the capricious tornado once more jumped and struck the Illinois shore near Madison, where it demolished several dwellings, the Leidkrantz Hall, and blew down a portion of the Madison Cooper Works, killing John Ellington.

Severe damage was done also to one building in Venice and Granite City,

which adjoin Madison, and a number of persons were injured. So quickly did the tornado sweep through North St. Louis that the citizens could scarcely comprehend what had happened, and in the stillness that followed the wild cries were heard on all sides as terror-stricken people ran about the streets. Not a telephone or trolley pole was left standing on the streets swept by the twister, and trees were piled in heaps. The width of the tornado was about a block and half.

A Broadway trolley car, containing eleven passengers, was suddenly buried under six telegraph poles, which crashed into the top and wrecked the car. The passengers had a remarkable escape from injury, and only the motorman received slight bruises.

Probably the heaviest loss suffered by a single concern was the destruction accomplished at the Niedringhaus Rolling Mill. The plant covers two squares, and half the plant was demolished, entailing damages estimated at \$25,000. Six employees were injured in this plant.

A concert was in progress in Festival Hall at the Exposition grounds during the heavy thunderstorm, when suddenly there was a flash of lightning and immediately all the lights went out. A panic was only prevented by a woman's voice taking up the strains of "America," the others joining in. Other familiar songs followed and the audience left the building singing but without excitement.

In the Chinese village on the Pike 360 Chinamen, just arrived, were being watched over by immigration officers temporarily when the storm struck. The celestials became panic-stricken and the officers were forced to draw revolvers to subdue the excitement. Lightning struck nearby and one Chinaman was severely shocked, while another jumped from the roof of the building and broke his arm. The bandstand in the plaza at St. Louis was struck by lightning and was burned before the rain extinguished the flames.

HEY, RUBE!

CIRCUS FIGHT IN WHICH TWO
WERE BADLY HURT.

The Pan American circus at Metropolis yesterday had a lively time before it reached there, and was delayed in getting its paraphernalia on hand in time for the first performance.

While the employees were loading at Pinckneyville, Ill., a row took place between several local young men and revolvers were freely used, there being from thirty to seventy-five shots fired. One of the show employees was shot through the body and a young man named Dick Folden was shot in the right arm, the ball ranging into his body, and has not yet been found. Dr. Mead was called and dressed the wounds and pronounced both men in a serious if not fatal condition. The man who was with the show company was sent to the hospital at Murphyboro, and it has since been reported died on the way. Young Folden was carried to his father's home, where he is in a critical condition.

TWELVE YEARS

SINCE THIS PROMINENT MAN
WAS A RESIDENT OF
PADUCAH.

Mr. E. Knappe, who twelve years ago was pastor of the German Lutheran church on South Fourth street, is here on a visit to his old friend, Mr. Fred Kamleiter. Rev Knappe is now one of the most prominent and wealthy residents of Seattle, Wash. His many friends here are pleased to see him again.

PART SOLD

DR. CALDWELL CLOSES OUT A
PORTION OF CHURCH
FURNITURE.

Dr. S. B. Caldwell, commissioner to sell the Second Presbyterian church property on South Fifth street, has disposed of a portion of the furniture to the new church recently built in the Clark's river neighborhood.

Three hundred chairs, the pulpit and pulpit furniture and one organ was sold for private consideration. The church purchasers will come in this afternoon and give their note for the amount and the furniture will be removed at once.

This leaves one other organ, many chairs from the Sunday school room and in fact enough furniture to equip another small church.

PRESIDENT LEAVES WASHINGTON FOR A MONTH'S VACATION.

Washington, August 20.—President Roosevelt with his usual party of secretaries, stenographers and secret service men, left this morning for Oyster Bay, where he expects to remain until September 20th.

WOMAN KILLED.

Venice, Ill., Aug. 20.—The tornado that swept across the river from North St. Louis killed one person here, injured ten others and caused considerable damage to property. The tornado was of short duration, but was remarkably destructive in force. The dead: MRS. MARGARET C. BEAL.

JOB OF AMATEURS WAS SAFE BLOWING

The Big Box at Mr. Henry Bradley's Blown.

Four of the Thieves and They Did Not Get Into the Safe, Which Contained no Money.

ALL MADE THEIR ESCAPE

An unsuccessful attempt to blow open and rob the safe of the Bradley Coal & Grain Co., on Harrison street between Eighth and Ninth, was made about 1 o'clock this morning by amateurs. The job was very badly performed as far as it went, and from every indication the burglars, who escaped in the weeds at the foot of Trimble street, were no- vices in the art of safe blowing.

About 1 o'clock this morning City Electrician Keebler was passing the Bradley building when he noticed flashes of light in the office. Thinking the electric light wires were out of order he started to investigate and learned the flashes of light came from dark lanterns.

Keebler hastened to the nearest phone and notified the police department and shortly afterward officers Hessian and Wallace arrived on the scene just in time to see the burglars make an exit through a grain door in the alley. They gave chase but lost the men in the weeds and darkness at the foot of Trimble street.

Mrs. Harrigan, who resides next to the building, heard voices and saw men walking in the alley. She suspected they were there for no good purpose and tried to phone to the police station but was unsuccessful in getting connections. It was only a short time after she made her discovery until the police arrived and as the three burglars who were in the building made their escape she was able to see them leave the building, but could not see plainly enough to recognize them.

The police think there were four men working on the job, one being stationed on the outside. The fourth who stood watch, ran from Ninth street after crying out to them inside that he would meet them somewhere on Sixth street.

After the officers lost track of the safe blowers, they returned to the building and with Mr. Bradley, who had been summoned, made an investigation. On the floor lay a large steel railroad pick and a heavy spike maul with half the handle broken off. The burglars had placed corn sacks about the high safe and knocked off the door with the maul. In the holes left where the knobs had been, black gun powder and nitro glycerine were poured, the men using a hollowed wedge as a funnel. The force of the explosion simply blew the front casing off the door and left the lock intact. It was here that the burglars were interrupted, it is thought, as they had gotten no further with their work of gaining entrance to the safe.

One of the proprietors of the company stated this morning that only three cents in money was inside the safe and that only books looked in it, so it would have been little profit to the safe blowers had they been successful in gaining entrance to the safe.

Chief of Police James Collins says it was the worst job he ever saw and thinks the men were in the primary grade of the profession. He is conducting a thorough search for any clue that may lead to the identity of the men but no developments were reported today.

The safe is wrecked as far as the combination lock is concerned and the door will be drilled open and a pad lock substituted, the safe being too badly wrecked to send to the factory. The damage to the safe will amount to several hundred dollars.

WORK FINISHED

CITY ENGINEER HAS ABOUT
COMPLETED MANY
THINGS.

City Engineer L. A. Washington is rounding out a busy two or three weeks. He has completed the plans for the storm water sewerage on Broadway, bids for which are to be opened August 22, and has about located all discrepancies in the estimates of Contractor Terrell and they will be ready to act on them at the next meeting of the boards.

GUARDSMEN BATTLE IN AN OHIO TOWN

Regulars and State Guards Exchange Shots.

One Was Killed and Several Others Hurt—Athens Now Under Martial Law.

SEVERAL ARRESTS WERE MADE

Athens, O., August 20.—The town is quiet today, but is still under martial law on account of the riot between the state troops and regulars last night. A number of regulars have been arrested, but charges will not be preferred until an official investigation of the shooting is made. All the saloons are closed and will probably remain so until after the encampment.

The trouble all started last night when regular army soldiers, said to be members of a cavalry troop connected with the First Brigade at Camp Armitage, attacked members of a provost guard of patrols made up of members of Company D, Fifth Ohio National Guard, Cleveland, and one man was killed and three wounded, the latter all being national guardsmen. The regulars escaped without any casualties as far as known.

The guardsman who was killed was Corporal Charles Clark, whose home is at Warren, where the company is located.

The regulars, who used pistols, scattered for a p. and none of them have been apprehended. Fifteen minutes after the shooting General Dick, in command of the National Guardsmen, and the regular army officers, had declared the town under martial law, and hundreds of regulars were rushed into the city, and are patrolling the streets to prevent further trouble.

As gathered from soldiers in camp, it seems that nearly all the provost guards sent to town to gather in soldiers who have overstayed their leaves have been guardsmen, and the regulars became possessed of an idea that the provosts were discriminating against the regulars in favor of the guardsmen, arresting the former and allowing the latter to go scot free when the miscreants were in such numbers that a choice arose of arresting either one or the other. Regulars assembled in Athens tonight in force and the provost from Troop D, met a number of them in front of the sheriff's residence near the court house. The regulars were halted and showed fight. The provost guards clubbed their rifles then, they claim, and the regulars began to shoot. They returned the fire, and more than a hundred shots were fired. The battle ended when the regulars scampered for the camp. No further trouble is anticipated.

GOVERNMENT TO INVESTIGATE.

Washington, August 20.—Secretary Taft has directed General Gillespie, acting here as general of staff to instruct General Grant, commanding the department to take up immediately the investigation of the reported killing of militiamen by regular soldiers at Athens, O., and report.

August Anderson, a farmer of Starke county, Ind., died from the effects of a mosquito bite.

THE DEATH STRUGGLE AT PORT ARTHUR

The Present Attack Believed to be the
Final One.

Russian Ships Will Escape or be Blown up to
Keep Japs From Getting Them.

THE BALTIC SQUADRON READY TO SAIL

Chefu, Aug. 20.—The final assault on Port Arthur is believed to be in progress. Heavy firing of big guns continued all day Friday and much of the night. A general assault is expected today. Both sides are said to have suffered heavy losses.

DEFENDING PORT ARTHUR.

Rome, Aug. 20.—A dispatch received today says that General Stosel, in command of Port Arthur, has divided his forces into three sections each having eight hours rest out of twenty-four. Thus two thirds of the troops are always on duty.

TOGO'S FLAGSHIP SUNK.

Chefu, Aug. 20.—A rumor is current from a Russian source that Admiral Togo's flagship has sunk here. There is no confirmation.

COMMANDED BY THE CZAR.

St. Petersburg, Aug. 20.—The czar has telegraphed his thanks to General Stoessel and his men for their defense of Port Arthur from the Japanese attacks. The telegram reads: "In my name the whole of Russia commends you and congratulates the garrison and troops, sea-men, and population of Port Arthur for their success in the battle of July 26, 27, 28. I firmly believe it's their full desire to support by bravery the glory of our arms. I heartily thank you all. Let the blessings of the Almighty rest upon them in their hard task of preserving the fortress from the enemy's assaults."

MORE TROOPS MOBILIZED.

St. Petersburg, Aug. 20.—The Minister of war has ordered further mobilization of troops in the districts of Kiev, Moscow and Kazan.

ANXIETY AT ST. PETERSBURG.

St. Petersburg, Aug. 20.—Acute anxiety prevails regarding the situation at Port Arthur on account of the desperate character of the fight reported to be taking place there, though the war office does not seem to believe that danger of the fall of the fortress is so imminent as is generally asserted. According to reports received by the war office there is still an ample supply of ammunition and provisions there. While it is realized that the Japanese probably outnumber the defenders six or seven fold, the

great strength of the fortifications, it is believed will do much to make up for the disparity in numbers.

Upon one point there is absolute unanimity—namely, that if the fortress falls the fleet will not fall into the hands of the Japanese. On this point the admiralty's instructions are of the most imperative character.

Vice Admiral Prince Oukhtomsky has been ordered should the worst come to pass to lead a death struggle and there is no question here that these instructions will be carried out both in letter and in spirit, but if for any reason a final sortie proves to be impossible, the admiral is to destroy his ships to make certain that the wreckage shall be absolutely irreparable.

BALTIC SQUADRON READY.

St. Petersburg, Aug. 20.—Vice Admiral Rojestvsky's Baltic squadron, including the battleship Orel, is standing off Cronstadt with steam up. It is popularly repeated that the squadron is ready for immediate departure. It is held that the immediate sailing of the squadron would be the best policy, on the theory that should it arrive within two months it would find Vice Admiral Togo's fleet in an infinitely worse condition than if the Japanese were allowed the whole winter to repair and refit the ships.

NEUTRALITY MUST BE RESPECTED

Shanghai, Aug. 20.—The Chinese at Tao Tai have determined that Chinese neutrality must be respected by the Russians, and have ordered the Russian destroyer Grosvoil to leave the Harbor at noon today, and the cruiser Askold before noon Sunday. If they fail to do so they must disarm.

Tokio, Aug. 20.—The Japanese yesterday occupied Anshan Chan. The Russian forces in the town retreated towards Mukden. Anshan Chan is southwest of Liao Yang. The town is naturally adapted for defense, and it is probably there was a fight before the Japanese entered the fortress.

St. Petersburg, Aug. 20.—It is reported that the Russian cruiser Novik, which left Tsing-Tau after taking refuge there for 18 hours, has arrived at Korhakov, on the island Seghalien.

WEEKS NEWS IN BUSINESS WORLD

Increase, 19,617

Counter business at the banks has

been active this week, and clearings

show an increase over the same pe-

riod last year.

General wholesale trade is good,

orders from the south and southeast

being very good especially for furni-

ture and dry goods. Collections are

fair and all lines are showing indica-

tions of a good season ahead.

Retail trade is at about the dulllest

season of the year, but the merchants

report better business than a year

ago.

The farmers of this section are

happy over the present price of wheat.

While it is true most of them have

sold their crop, there are a few holding

out still for higher prices.

Mr. William Pieper, the well

known harness maker, has gone up

the Louisville division of the I. O. to

hunt up a suitable location to start a

harness shop.

Mr. Pieper is a hard worker and has decided to start a shop of his own and as Paducah is crowded will hunt another location. It is understood he favors Kuttawa and may locate there. His many friends here will regret to learn of his departure from the city, but will be glad to hear of his success.

The I. C. pay car arrived this morning at 8 o'clock from the Louisville division and all hands were paid off. This is the earliest the pay car has arrived here in some time, generally coming after nine o'clock, and the shop men and their families were able to do a great deal of shopping and buying before darkness. The merchants expect a heavy trade tonight.

Wallace Hall and wife who have been residing in Paducah where Mr. Hall has been engaged in a drug store have come to Bardwell to reside. Mr. Hall who is a graduate of pharmacy, has accepted a position with the Hutson Drug Co., and will hereafter be found in charge of the prescription department there.—Carlisle News.

RAIN AT HENDERSON.

Henderson, Ky., Aug. 20.—The Henderson-Vincennes game was postponed on account of rain. A double header will be played Sunday.

AMATEUR GAMES.

The Redmonds Unions will go to Dyersburg next Wednesday to play three games. The battery for the three days will be Dickie and Wilkins, Woodridge and Wilkins and Brown and Wilkins. The boys are in fine trim and the best amateurs in the city will be taken along. Dyersburg has a fast team and it will take all the ginger that the Redmonds have to defeat them.

GILLIGAN'S JOKE.

"Red" Gilligan liked to have been mobbed at Cairo, it is said, by very careless speech made among Cairo fans.

"We are going to throw all our games to Paducah," Gilligan is alleged to have jokingly remarked, "so they can get a little nearer the pennant. We think that other teams in sympathy with Paducah will also do this, and Cairo will not likely get the pennant after all."

After this Gilligan had to take to the "tall and uncouth." If he had really meant such a thing, yesterday's game is evidence sufficient to show it was a joke.

BALL NOTES.

"Big" Taylor, Paducah's fielding pitcher hits well on the circuit but here has not done so well, possibly because of the fans who take every advantage to "knock." They call him "Little Eva," "Baby" and many other similar names and the good natured pitcher sometimes gets too anxious to hit the ball and misses altogether.

Alexander and Ketter for Hopkinsville, Lloyd and Land for Paducah, will be the batteries for today.

One of the most popular ball players in the Kitty league is Pitcher Ferrell, of the Hopkinsville team. Ferrell is quiet and rarely ever kicks and when he does, kicks in a gentlemanly manner. He is popular with his own team and with members of all others. The Hopkinsville boys seem to be the best lot of boys so far as kicking and rowdiness are concerned, in the league.

Ben Boyd, the colored baseball manager and roofer, created much mirth in the grandstand yesterday by getting Pitcher Pettifer pretty badly rattled. Boyd was sitting on the corner of the fence on the colored bleachers, and his loud shrill voice

**WHEN BABY IS COMING USE Mother's Friend**

Woman's greatest dream of beauty and glory is when nature has chosen her to become a mother. Every faculty is keenly alert as she foresees the joy, ambition, success and the life-long satisfaction coming nearer, day by day, in the dear and innocent being so soon to see light, and the uncertainty whether she shall see a sweet girl or a brave boy face beside her on the pillow adds zest to her expectancy.

Mother's Friend applied externally throughout pregnancy will relieve the pain of parturition, and no mother and child can fail to be healthy, hearty, strong, clear complexioned, pure blooded and cheerful in disposition, who are mutually influenced by the continued use of this great liniment, MOTHER'S FRIEND.

could be heard the entire game through. When he began directing Pettifer how to deliver the ball and play ball "like a sure 'nuff ball player" the big pitcher got somewhat "hacked" and started in chewing the rag with the colored roofer.

Three new players for the Clarksville team are expected tomorrow morning. One is Collins, one of last season's popular men on the local team. He has been playing this year with Syracuse, is a fine centerfielder and last year was one of the heaviest hitters in the Kitty league. Another man is named James. He comes from Columbia, Tenn., and is said to be a good man. He will act as a relief catcher for Pettifer who has done hard and excellent work this year. A third man who will be used for general utility purposes will be here also.

This trio will greatly strengthen the local team and the boys should get together and win the pennant. They can do it.—Clarksville Star.

Brady is back from Jeffersonville and will probably work in the box this afternoon instead of Lloyd.

Bonno has been reserved for Sunday and the fans will probably be out in force to see the big league man work. Gilligan, Barlow and several other players in the league know Bonno and say he is about the hottest thing in the pitching line in the league.

There will be some changes in the team today. Land, who has been catching steadily and needs a rest will go first and Eddie Brahic will catch. Lally will play third, Gerard being benched for the present.

INCIPIENT BLAZE

Market House Had a Close Call Before Daylight Today.

Box of Matches Ignited in a Drawer and Set Fire to Counter.

Paducah's dilapidated market house would probably have been destroyed by fire at an early hour this morning had not Mr. Ed Duperrien, proprietor of a coffee stand inside, arrived in time to discover and extinguish a blaze in Mr. Steve Menard's stall.

Mr. Duperrien arrives early and usually opens the market house. This morning when he got inside he found volumes of smoke smoke issuing from the counter at Mr. Steve Menard's stall, on the west side of the market house, second stall inside from Broadway. An investigation revealed the fact that the blaze was in the money drawer. Mr. Duperrien finally succeeded in breaking open the drawer and extinguishing the fire. He found that a box of matches had ignited, no doubt from spontaneous combustion, as there was no hole in the drawer by which a rat could have gotten inside.

The damage was slight, but Mr. Duperrien's timely arrival no doubt saved the market house, as it is nothing but mere framework of combustible material, and would soon have burned had the flames gained more headway.

A DUMMY

CREATED EXCITEMENT AMONG COLORED PEOPLE.

Some wag last night placed a rag dummy in the grave at Sixth and Broadway where a man supposed to have been in a hypnotic trance lay buried for three days, and last night several negro women were badly shocked and frightened when through curiosity they looked into the hole and saw the rag dummy. The sleeper was taken out of the grave early in the evening and the hole, of course, was supposed to be empty. The nocturnal sightseers left for home in a dead run. The dummy was still in the grave this morning.

PARK SITE CONSIDERED.

A meeting of the park committee was held last night to consider the public park question. The members of the committee are: Judge W. M. Reed, president; W. F. Paxton, secretary; J. M. Lang and R. G. Caldwell, citizens, and Aldermen Davis and Singleton and Councilmen Hymarsh and Gilson, of the general council. The secretary was instructed to correspond with Mr. Abrams, of New Orleans, relative to some property near the new fair grounds, between Jefferson and Trimble streets, and the board will meet again when a reply has been received.

NEWS OF THE RIVERS.

Observations taken at 7 a. m., river 3.8 on the gauge, a stand. Weather cloudy and cool. Temperature 72 with south winds. Rainfall, .38. SAUNDERS A. FOWLER, Local Observer.

The Bob Dudley will arrive tomorrow from Evansville one day late. The Richardson came in yesterday but left late last night, and on account of this throwing the boats out of schedule order. The Dudley will leave tomorrow and the Richardson made the Sunday trip, leaving Paducah Monday.

The Royal arrived and departed on time today for Golconda.

The Dick Fowler left on time this morning for Cairo.

The Tennessee will leave tonight for Tennessee river.

The Savannah is due out of the Tennessee river.

The Memphis is due up Monday from St. Louis to Tennessee river.

Every packet on the river is leaking badly. This is caused by the clearing up of the water and crews are having considerable trouble. The river now is perfectly clear and the sand and other sediment having become washed out of the hulls, water goes through in streams.

The sternwheel steamer Crescent City will be for sale in a few days. A new boat is to take her place in the Evansville and Green river trade.

The Inverness will go into Tennessee river today. She arrived yesterday.

The Pavana will arrive today from Tennessee river.

The Castalia got away to Tennessee river yesterday.

The Victor and Penguin are due out of Tennessee river about Monday, or Tuesday.

PRINCESS CHIMAY WEDS.

London, August 20.—Clara Ward of Detroit, heiress to \$3,000,000, who, as the Princess Chimay, was traveling companion of Violinist Tigo and a figure in other episodes which furnished food for much gossip in America and Europe, appeared yesterday in the registry office in London as the bride of her latest sweetheart, Ricardo, an Italian railway station employe, with whom she fell in love while traveling in the south. Before the marriage ceremony Rigo, in the presence of witnesses, was paid \$3,000, and signed a paper waiving all claim on the princess.

Jacob Hussmen, an aeronaut, was drowned in Lake Alice, at Fergus Falls, Minn., hundreds of persons witnessing the accident.

UNION OF INTERESTS

COMBINING THE EDUCATIONAL WORK OF TWO BRANCHES OF METHODISM PROBABLE.

The approaching session of the Kentucky Conference of the Methodist Episcopal Church, South, which meets at Lexington August 31, will be one of the most interesting and important church assemblies ever held in Kentucky. In addition to the regular routine work of the conference, action will be taken on the question of the proposed consolidation of the educational work of the Southern and Northern Methodist Churches in Kentucky. Unusual interest attaches to the solution of this church problem, not only on account of the Speed will decision, but also on account of its far-reaching influence on Methodist polity.

The division of the Methodist Church in 1844 into two branches is ancient history to most of the members on either side. The contentions, prejudices and passions growing out of the Civil War have largely been forgotten and passed into history. An era of good feeling and fraternity now is in full blast, and neither side would tolerate any agitation that sought to revive the animosities of the past. The organic union of the churches is not an issue; but practical fraternity and co-operation are eagerly encouraged by both sides.

7,000,000 ATTENDED

FIRST HALF OF WORLD'S FAIR PERIOD ENDS AND GREAT HOPES ARE HELD FOR SECOND HALF.

St. Louis, Mo., Aug. 20.—(World's Fair Grounds.)—The Louisiana Purchase Exposition has entered upon the second half of its entire period, and the total attendance up to date in round numbers is 7,000,000. There is not the least doubt expressed but that the second half will even more than triple the attendance so far recorded.

While St. Louis has enjoyed remarkably cool weather this summer, the coolness of fall and early winter comes during the second half. The exposition stands absolutely complete in every detail, and the merits of the great enterprise have become widely known, and for these reasons great confidence is felt in estimating a record-breaking attendance before December 1, when the Exposition closes.

NO RUN TO CAIRO.

The automobile club will not make the run to Cairo tomorrow on account of the weather. The rains have made the road very bad and the club will wait until next Sunday before attempting to make the run.

THE PADUCAH EVENING SUN.

The Week In Society.

A LOVE LETTER.

Dear Adeline: Your grace hath lent
To me a new charm. Of old, I bent
Above a dark and toilsome way
With empty heart. By naught made
gay,
When Duty becked, in grief I went.
And then—you came! The clouds
were rent;
The roses bloomed with rarer scent
Beneath your smile. The world
was May,
Dear Adeline.

But one thing lacks. To crown con-
tent,
Defer no more the glad event.
Come, sweetheart, name the happy
day.
When next you write, a postscript,
pray—
A word or two to give consent,
Dear, add a line!
—Samuel Minturn Peck, in Smart
Set.

TWO CHARMING GUESTS.

The only thing of importance on
the social calendar the past week was
the dance given by Miss Lillian Greg-
ory at Wallace Park in honor of
charming guests, Miss Virginia Ben-
nett, of Danville, and Miss Gertrude
Funk, of Indianapolis. Miss Bennett
is the daughter of the late Judge Cas-
well Bennett, formerly Chief Justice
of the Kentucky Court of Appeals,
who was a native of Western Ken-
tucky. Her mother, who was Miss
Mollie Crumbaugh, of Eddyville, is
also a West Kentuckian and is one of
the brightest women in the state.
With such ancestry it goes without
saying that Miss Bennett, who is still
a school girl is unusually attractive.
Miss Funk is also a charming young
woman, and has become quite popu-
lar here.

PADUCAHANS AT THE FAIR.

The Kentucky Building at the
World's Fair, continues to be extremely
popular, attesting the loyalty and pride
of Kentuckians in their State's World's
Fair Commissioner F. M. Fisher, of
Paducah, who was in charge of the
building the past week, entertained
1,000 guests on Thursday. Mr. and
Mrs. Fisher and family will return
home Monday.

The following Paducahans regis-
tered at the Kentucky Building the
past week:

CHRISTENING VESSELS.

The various eastern societies objected to the christening of the Battleship Connecticut with champagne, and petitioned acting Secretary of the Navy, Darling to use spring water instead.

For the past ten years the total abstinence societies throughout the country have been trying to induce the navy department to christen United States ships with spring water instead of champagne, but their efforts have met with poor success. Only one vessel in the navy was so christened, and, strange enough, that one was the battleship Kentucky. However, as an observer of the launching broke two quarts of Kentucky bourbon against the vessel's side as she was sliding down the ways after the official temperance christening, it cannot be said that the launching was entirely a temperance affair.

The petition just presented, declares that "The use of wine in the ceremony is a practice misleading to the young, questionable to others and objectionable to many."

In his reply Judge Darling says in part: "I have great respect for your cause and your organization, comprising 46,000 societies and 3,000,000 members in the United States, but in this particular case, as a practical question, I am unable to reach your conclusions. If the youths of the country are misled, it is not by the ceremony of breaking wine upon the iron prow of a battleship, but because they follow false prophets, and if the use of wine is questionable to others and offensive to many, it is because of evil to him who evil thinks."

"It is inconceivable that the breaking of a bottle of wine upon the Connecticut can injure her as a battleship or work the slightest injury to any man; and as an example it seems to me that the cause of temperance would be better served if more of the world's product of wines were spilled overboard to wash the hulls of battleships."

"Finally, permit me to suggest that you and the 3,000,000 people you represent ought to find some comfort in the thought that wine thus expended can neither imperil the soul nor contribute to the cup of human sorrow."

TOM WATSON ON DEMOCRACY.
Here are a few striking truths from Tom Watson's speech:

"It is an easier and quicker job to strike an open enemy right between the eyes than it is to tear off the mask from the face of a pretended friend and show him to be the hypocrite that he is. That is why I am consuming more time in discussing the Democrats than in speaking of the Republicans."

a situation so ludicrous as that which the national Democracy now holds. I can understand how the citizen can work for the Republican party and vote its ticket with enthusiastic zeal, but why any human being should, in the year 1904, vote the national Democratic ticket is something that passes my comprehension.

"Boiled down to its real essence, sifted to its real meaning, the Democratic campaign of 1904 is a mere unscrupulous hunt for office."

Mr. Watson, it might be added, represents the Populist party, which has been voting the Democratic ticket for the past eight years.

The Democrats of Kentucky seem to be worried over the fate of Former Governor, W. S. Taylor, should the Democrats elect a governor of Indiana in November. There is no cause for alarm. Indiana will go Republican by 25,000 majority. The Democrats are pleased to refer to Gov. Taylor as "a fugitive from justice." He has never been a fugitive from justice, but from injustice. He has signified his willingness to return at any time he is guaranteed a fair trial, but he can never get a fair trial as long as Kentucky has partisan courts. If the Democrats of Kentucky want W. S. Taylor they can get him by giving him a fair trial. This will be vastly easier and quicker than waiting for Indiana to elect a Democratic governor who will send him to Kentucky to become a victim of partisan persecution, as Caleb Powers and others have been for the past four years.

The Owensboro Inquirer, independent, says: "The idea of the elevation of Judge Cantrill to the appellate bench of Kentucky is repulsive to every man who realizes the importance of the position and has a proper conception of the character of man who should fill it. That a man should be elevated to the supreme bench by the methods followed in the convention that nominated Judge Cantrill is an outrage upon decency, but as long as it is Judge Cantrill we willingly concede that the methods were eminently proper. If it had been done by a clear majority and acquiesced in by the party we should say that we had lost hope. Rascality cannot always win, even for rascals and among rascals."

The Democrats of Kentucky will make very little headway in getting co-called "fugitives from justice" as long as they have Cantrill-Hargis and others who belong to the Breathitt county clique. Hargis virtually nominated Cantrill for the court of appeals. These inseparable comrades always stick together. The question is, if Cantrill is elected, who will really be judge, Cantrill or Hargis?

Those Democrats who think the Populists are going to support the Democratic ticket should read the Populist nominee's speech. It needs no explanation. It shows a determination which further reduces the chances of those, Mr. Watson declares are engaged in a "mere unscrupulous hunt for office."

"Aunt Carrie" Nation has at last spoken. She commends Bishop Potter for being courageous enough to stand by his convictions, which she says, others are too hypocritical today—and then gives him fits for his convictions.

If the "drys" win in Mayfield today, the "wets" needn't worry. They can still have their "licker" sent to them from Paducah by the jug, demijohn or barrel—or if they prefer, they can buckle on their shooting iron, put a roll in their pockets, and come after it.

Mayfield is today voting on whether to sell whiskey legally or to continue selling it illegally. In the local option campaign just ended, Paducah has been

held up as a horrible example, but the people here doubtless will take the saloon in preference to the blind tiger every time.

Just like the gang to wait until hot weather is about over, after the public and the press have for weeks been shouting themselves hoarse for relief, and then become wonderfully solicitous about public health.

Paducah needs a board of health that will have backbone enough to do its duty.

Judge Parker is probably beginning to wish he hadn't resigned his judgeship.

HE FINALLY DIED
OF HIS WOUNDS

Man Shot by Gip Griffith is Dead.

Much Excitement in Kentucky Over Cabbage Snakes—Deaths at Fulton and Mayfield.

CONFEDERATE REUNION SOON

Hopkinsville, Ky., August 20.—Henry Warner, aged 70, a farmer of the Fruit Hill vicinity, died from the effects of wounds sustained on June 22, when he was shot and clubbed by Gip Griffin, a cropper. The men had disputed about the working of stock and parted in anger. An hour later, Griffin armed with a shotgun went to the field in which the old man was working, and, according to Mrs. Warner and others who were eye witnesses from the house, fired on him.

Warner was struck by some of the shot, but remained standing and Griffin advancing closer, fired again, the full charge entering the farmer's leg and hip. Griffin struck Warner several times on the head with the butt of the gun and then ran. He has not been captured, though officers have searched for him. Griffin is about 35 years old and has been married only a few months. He has a brother, Pete Griffin, in Paducah.

THE CABBAGE SNAKE.

Cloyd's Landing, Ky., August 20.—The cabbage snake or worm has been found to exist here, and, with the discovery, cabbage is left off the table.

Mr. Pendy G. Bedford has one of these snakes, which he has preserved in a jar of alcohol. It is of a pink color, the size of a hair or finer, has a head like a black bead and is nine inches long—the longest yet reported. It was found by Mr. Bedford's daughter-in-law, Mrs. Daisy Bedford, who first saw it crawling on her hand while she was preparing a head of cabbage to cook. These snakes are said to be of every color imaginable, or various lengths and almost too small to be visible to the naked eye. They are said to be very poisonous. It is claimed that one tiny snake contains enough venom to kill several persons, and that when one of them is eaten death follows immediately.

A report has reached here which says that several persons have died in Clay County, Tenn., from eating cabbage.

Pe-ru-na.

C. D. TAYLOR.

C. D. Taylor, Clerk of the City Board of Health of Jacksonville, Fla., has occupied that position for the last ten years. In a recent letter to the Peruna Drug Mfg. Co., he expresses his approval of their famous catarrh remedy Peruna in the following words:

"The health of the poor of a large city is always a question of vital interest not only to the city officials but to every citizen. It has been a source of much satisfaction to me to find that so large a number of working people in moderate circumstances have accepted Peruna as their family medicine. It has cured a large number of cases especially of catarrh of the head, lungs and stomach and building up the general health it cannot fail but prove a help and blessing to any community where it is generally adopted and used. I have found it an honest reliable remedy and am pleased to endorse it."—C. D. Taylor, Clerk, Board of Health.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

ABILENA

Abilena is natural water. It holds in solution salts dissolved from natural deposits in the earth. It is Nature's cathartic compound—a natural mineral water. Mineral waters are recognized everywhere as the most efficient, as well as the least injurious, cathartics. Abilena is the best mineral water on the American market. It is The American Natural Cathartic. The discovery of Abilena was a simple revelation of nature. For a long time after the first well was dug, the water, being unfit for domestic purposes, was not used at all. Practical tests afterward disclosed its medicinal properties and the report of its virtue was rapidly disseminated. Finally several chemists analyzed the water and the results manifested its great therapeutic value and preindicated its future renown. Sold only by

MAN WAS RESURRECTED.

The hypnotic show at The Kentucky last night was attended by a fair-sized crowd. It was given under the auspices of the Red Men and quite a neat profit was netted from the three days' exhibition of the man buried alive at Sixth and Broadway, and the show at the opera house.

The subject who had been buried was brought to life on the stage of The Kentucky and made a short speech to the audience after which the hypnotist gave his exhibition.

BAD BOYS ARE HELD ON FELONY CHARGE

One Fined \$25 as a Result of Wrecking School.

The Case Was Heard Before Judge Sanders—Several Proved They Were Not in It.

POOL CASE AGAIN CONTINUED

Holding over to circuit court of Ed Skillian and Cooch Eggleston and a \$25 fine and costs for Lige Schreve, is the result of the case against the above three and four other youths of the south side who broke into the Franklin school building and completely wrecked the furniture several days ago.

Joe and Ed Meadows, Bernard Sanders, Bery McGee and Kay Smith with the above three, were originally arraigned but no evidence could be secured against Meadows, Enders, McGee and Smith youths, who were dismissed. The testimony as to the others, however, showed that Skillian and Eggleston had taken one of the clocks from the building and sold it to a Mrs. Williams and for this action they were held over on the charge of obtaining money by false pretenses. Schreve took no part in this but it was proven he helped wreck the furniture, and he was fined.

This is a very interesting case as the damage to the building is great. The furniture will have to be replaced by new desks and other equipment and the school will probably be delayed in opening this fall.

The case against Philander Pool for pointing a shot-gun at Attorney William F. Bradshaw was continued until Wednesday, Mr. Pool being ill and unable to attend court.

Albert Hickerson and Atchie Perry, colored, were fined \$1 and costs, the former for drunkenness and the latter for using insulting language.

The judgment in the Lige Schreve case was appealed.

—J. J. Covington, Lem Bethel and J. T. Hill, three suspicious looking white men, were arrested by Officers Cross and Orr last night on suspicion of being wanted somewhere but were released this afternoon.

TRUE FRIEND

HE KNEW WHAT FOOD ALONE WOULD DO.

"Three years ago my brother was suddenly attacked with an acute stomach trouble that ultimately reduced him to a mere skeleton. He consulted three physicians and two specialists but they gave him absolutely no relief.

"Eating ordinary food, even the smallest quantity, meant for him terrible pain which kept up until he had vomited almost all of the food up again.

"He tried so many prepared foods but not one of them seemed to help. He said they even aggravated his trouble and when a friend urged him to try Grape-Nuts he bluntly refused. This friend being persistent went out and bought a package of Grape-Nuts prepared a small amount of it and actually urged him until he ate it with some cream. The results were pleasant for the first time in a long, long time he had found food that would stay on his stomach.

"Not only that but the Grape-Nuts rapidly brought him back to health. He lived on Grape-Nuts and cream the following week and nothing else and the effects were magical and the following three months he ate nothing else, taking absolutely no medicine and in that short time not only was his health entirely regained but his weight also and today he is strong and in perfect health once more."

Name given by Postum Co., Battle Creek, Mich.

When trouble comes from improper food no medicine can cure until that improper food and its effects have been corrected by a change of diet to the proper food. Grape-Nuts being absolutely the most nourishing and the most digestible food in the world work wonders in such times as a ten days trial proves. "There's a reason."

CALLED MEETING

K. I. T. League Officers to Gather Tomorrow.

The Object of the Meeting Not Known By President Thompson.

President Irvin Thompson has called a special meeting of the K. I. T. league to be held in Paducah tomorrow. The object of the meeting is not known.

President Thompson is in the city today and will remain over to attend the meeting and stated that he called the meeting at the request of Secretary Maurice J. Farnbaker, of Cairo.

Mr. Farnbaker did not give his reason for wanting the meeting. It is understood that Secretary M. J. Farnbaker is not acting as secretary of the league any more on account of ill health, and that the reason a meeting is called for tomorrow is in order to allow him to resign, as it is understood he wants to do. President Thompson says he is at present acting as secretary of the league with office at Paducah, where he will probably remain the remainder of the season, and run the league alone.

Up to this afternoon only one league city had been heard from. Hopkinsville wired that a representative would attend the meeting from there.

Rev. W. P. Hamilton has returned from Memphis, and Dyersburg, Tenn. He was called to Dyersburg to see his mother, who is ill, but is now better.

Miss Lula Barksdale, of Hardy, Miss., will arrive Tuesday to visit Mrs. J. T. Reddick. She will go to St. Louis after a visit here, accompanied by Mrs. Reddick and two sons.

Mrs. M. A. Bouysseon, of Chicago, has returned home, accompanied by her sister, Mrs. J. A. Smith, of Deport, Texas, who will visit her, and also stop in St. Louis, to attend the fair.

Mrs. George Phillips who has been very ill at her home on North Seventh street is still improving.

TEN DAYS SUSPENSION.

The police commissioners held a called meeting last night to investigate charges of using unbecoming language, preferred against Officer Aaron Hurley. It was alleged he told a stranger at the Commercial Hotel that if he talked too much, he "would hit him in the mouth." Officer Hurley explained that his temper got the better of him. There were many witnesses who testified that the officer is one of the best and most faithful and efficient in the city, which the commissioners knew, but on account of the technical violation of rules he was suspended for ten days, dating from August 15th.

A CONTINUAL STRAIN.

Many men and women are constantly subjected to what they commonly term "a continual strain" because of some financial or family trouble. It wears and distresses them both mentally and physically, affecting their nerves badly and bringing on liver and kidney ailments, with the attendant evils of constipation, loss of appetite, sleeplessness, low vitality and despondency. They cannot as a rule, get rid of this "continual strain," but they can remedy its health destroying effects by taking frequent doses of Green's August Flower. It tones up the liver, stimulates the kidneys, insures healthy bodily functions, gives vim and spirit to one's whole being, and eventually dispels the physical or mental distress caused by that "continual strain." Trial bottle of August Flower, 25c; regular size, 75c. At DuBois, Kolb & Co.

CONTRACTOR HURT.

HERBINE

Restores the bile more fluid and thus helps the blood to flow; it affords prompt relief from biliousness, indigestion, sick and nervous headaches, and the over-indulgence in food and drink. Herbine acts quickly, a dose after meals will bring the patient in to a good condition in a few days.

G. L. Caldwell Agt., M. K. and T. R. R., Chocotah, Ind., Ter, writes, April 1, 1908: "I was sick for over two years with enlargement of the liver and spleen. The doctors did me no good, and I had given up all hope of being cured, when my druggist advised me to use Herbine. It has made me sound and well." 50c. DuBois, Kolb & Co.

Claim Coal Has Been Bought From the Mines For Private Use and Hauled at Half Rates.

WHAT THE COAL MEN SAY

The local coal dealers held a meeting a few nights ago to discuss the matter of preventing persons not dealing in coal to purchase it by the car load from the mines. No final action was taken except that an association was organized. The dealers threaten to prosecute the Illinois Central before the railroad commissioners for the alleged violation of the freight laws, because it is alleged the road has been allowing employees to order coal from the mines direct, and has been hauling the coal at half rates.

The local dealers have appointed a grievance committee to confer with the railroad commissioners.

"We have formed an association similar to that of the retail grocers," one coal dealer stated this morning, "for the purpose of protecting our business. Annually the railroad gives its employees a half rate on coal shipments, and they order a car of coal and get it here for 40 cents per ton, while the dealers are charged 80 cents. The coal when it arrives is divided among those who made up the order, and from what we have learned the employees alone are not benefited, but outsiders are often let in on it. It is not fair for the mines to sell coal in carload lots for private use. We are here in the coal business and have to depend on it for a living. We pay taxes, a license, for bookkeepers, clerks, wagon drivers, feed, stables, and scores of other things necessary in conducting our business, and it is not right or fair for those who depend on us to put their product on the market, to sell to people who have to pay no license and are under no expense for carrying on the coal business, and get it hauled here at half rates.

"I understand that some complaint has been made, but it is foolish. People can't buy anything else in car load lots unless they are dealers. They can't get a car load of flour, of coffee, of bacon, of meat, or anything else unless they are dealers, and buy it to resell. This is because the manufacturers and wholesalers protect the retail trade, and is what we want the mine operators to do for the retail coal trade."

The Pittsburgh coal combine was not represented in the meeting, as it markets its own coal.

The other side is simply that every person wants to get his coal as cheap as he can, and some of the residents of Paducah, it seems, had a chance to get it cheaper than they could from local dealers, and took it, in which they are perfectly justified.

LAST DAY

THE FAIR CLOSES AFTER A SUCCESSFUL WEEK.

The fair and races yesterday afternoon received a very good patronage, especially from the ladies. The week's festivities close today.

The crowd was nearly as large as the previous day and the racing was good and enjoyed by all in attendance.

Today is the last day of the fair and tonight with the open air entertainment it will close. The entire week has been successful. The world's fair at St. Louis affects all such fairs and after 1904 the smaller fairs will be better patronized.

TOE CUT OFF

AN UNUSUALLY PAINFUL ACCIDENT BEFALLS SMALL BOY.

James the little son of Mr. Elmore Stegar, cut his right foot on a glass bottle yesterday afternoon near his home on North Sixth street. The little fellow was playing in the street when the accident happened and the glass cut the ball of the big toe entirely off. Dr. P. H. Stewart dressed the wound.

Printing Committee, J. A. Calloway, G. R. Broadfoot.

Soliciting Committee, T. F. Evitts, Dick Rosenthal, M. J. Michaelson, M. J. Yopp, G. R. Broadfoot, G. O. Ingram and D. A. Cross.

Music Committee, J. A. Calloway, secretary; A. W. Barkley, treasurer, G. D. Broadfoot.

Chief Ticket Taker, D. A. Cross.

Today the Woodmen held a meeting and decided to hold the carnival at Twelfth and Trimble streets, where the carnival last spring was held.

CASE HEARD

INJUNCTION AGAINST THE ILLINOIS CENTRAL BEING ARGUED.

In the case of the city of Gilbertsville, Marshall county, against the St. Louis, Chattanooga and New Orleans (Illinois Central), has been argued before Circuit Judge Reed for the past two days in the attorney's offices in the Fraternity Building. It is an injunction suit to prevent the road from doing various things in connection with the changing of its track to the new Tennessee river bridge near Gilbertsville.

A decision is expected next week.

BIG REWARD

OWNERS OF ZEIGLER WILLING TO PAY FOR INFORMATION.

Benton, Ill., August 20.—The Zeigler Coal Company today offered a fifteen hundred dollar reward for the arrest and conviction of the persons who fired in their train of imported miners at Christopher last week.

Sleep is said to be healthful, and no one seems to know it better than the hired girl.

The Spanish encampment of Spanish War Veterans will be held at the World's Fair, September 19 and 20.

Her fore and main tops'ls and to'gal-lants'ls were set, as also were her lower stays'ls and royals. But the braces seemed to have parted, and the yards were swinging back and forth in their ties. The spanker was brailled up, and the spanker boom thrashed idly over the poop as the bark rolled and rolled and rolled. The mainmast was working in its shoe. The rigging and backstays sagged. An air of abandonment, of unspeakable loneliness, of abomination, hung about her. Never had Wilbur seen anything more utterly alone. Within three lengths the captain rose in his place and shouted:

"Bark ahoy!" There was no answer. Thrice he repeated the call, and thrice the dismal thrashing of the spanker boom and the flapping of the sails were the only answers. Kitchell turned to Wilbur in triumph. "I guess she's ours," he whispered. They were now close enough to make out the bark's name upon her counter, Lady Letty, and Wilbur was in the act of reading it aloud when a huge brown dorsal fin, like the triangular sail of a lugger, cut the water between the dory and the bark.

"Shark!" said Kitchell. "And there's another!" he exclaimed in the next instant. "And another! Strike me, the water's alive with 'em! There's a stiff on the bark, you can lay to that." And at that, acting on some strange impulse, he called again, "Bark ahoy!" There was no response.

The dory was now well up to the derelict, and pretty soon a prolonged and vibratory hissing noise, strident, insistent, smote upon their ears.

"What's that?" exclaimed Wilbur, perplexed. The captain shook his head, and just then, as the bark rolled almost to her scuppers in their direction, a glimpse of the deck was presented to their view. It was only a glimpse, gone on the instant, as the bark rolled back to port, but it was time enough for Wilbur and the captain to note the parted and open seams and the deck bulging and in one corner blown up and splintered.

The captain smote a thigh. "Coal!" he cried. "Anthracite coal! The coal he's up and generated gas, of course—no fire, y' understand; just gas—gas blew up the deck—no way of stopping combustion. Naturally they had to cut for it. Snell the gas, can't you? No wonder she's hissing—no wonder she rolled—cargo goes off in gas—and what's to weigh her down? I was wondering what could 'a' wrecked her in this weather. But it's as plain as A B C."

The dory was alongside. Kitchell watched his chance and as the bark rolled down caught the mainyard brace hanging in a bight over the rail and swung himself to the deck. "Look sharp!" he called as Wilbur followed. "It won't do for you to fall among them shark, son! Just look at the hundreds of 'em. There's a stiff on board, sure."

Wilbur steadied himself on the swaying broken deck, choking against the reek of coal gas that hissed upward on every hand. The heat was almost like a furnace. Everything metal was intolerable to the touch.

"She's abandoned, sure," muttered the captain. "Look. And he pointed to the empty chocks on the house and the severed lashings. "Oh, it's a haul, son—it's a haul, an' you can lay to that. Now, then, cabin first." And he started aft.

But it was impossible to go into the cabin. The moment the door was opened suffocating billows of gas rushed out and beat them back. On the third trial the captain staggered out, almost overcome with its volume.

"Can't get in there for awhile yet," he gasped, "but I saw the stiff on the floor by the table. Looks like the old man. He's spit his false teeth out. I knew there was a stiff aboard."

"Then there's more than one," said Wilbur. "See there!" From behind the wheel box in the stern protruded a hand and forearm in an oilskin sleeve. Wilbur ran up, peered over the little space between the wheel and the wheel box and looked straight into a pair of eyes—eyes that were alive. Kitchell came up.

"One left anyhow," he muttered, looking over Wilbur's shoulder. "Sailor man, though. Can't interfere with our salvage. The bark's derelict right enough. Shake him out of there. Can't you see the lad's dotty with the gas?"

Cramped into the narrow space of the wheel box, like a terrified hare in a blind burrow, was the figure of a young boy. So firmly was he wedged into the corner that Kitchell had to kick down the box before he could be reached. The boy spoke no word. Stupefied with the gas, he watched them with vacant eyes.

Wilbur put a hand under the lad's arm and got him to his feet. He was a tall, well made fellow, with ruddy complexion and milk blue eyes, and was dressed, as if for heavy weather, in oilskins.

"Well, sonny, you've had a fine mess aboard here," said Kitchell. The boy—he might have been two and twenty—stared and frowned.

"Clean loco from the gas. Get him into the dory, son. I'll try this bloody cabin again."

Kitchell turned back and descended

from the poop, and Wilbur, his arm around the boy, followed. Kitchell was already out of hearing, and Wilbur was bracing himself upon the rolling deck, steadying the young fellow at his side, when the latter heaved a deep breath. His throat and breast swelled. Wilbur stared sharply, with a muttered exclamation.

"Heavens, it's a girl!" he said.

THE ANNIE RUSSELL WAS HERE TODAY

Millionaire Russell Gardner
Talks of New Wheel Factory.

Says He Will Probably Establish
Both a Wheel and a Buggy
Factory in Paducah.

WILL RETURN HERE MONDAY

Mr. Russell E. Gardner, of St. Louis, president of the Banner Buggy company, and a well-known St. Louis millionaire, reached Paducah yesterday afternoon, late on his pleasure boat Annie Russell, enroute to Cairo on business. Mr. Gardner started to Pittsburg, but had to turn back at Cincinnati, on account of low water. He went to Cairo this morning to meet some friends from St. Louis, but will return to Paducah tomorrow or Monday.

"I just stopped at Paducah on my way down," said Mr. Gardner to a reporter, "I expect to be back in a couple of days. I am arranging to start a wheel factory in Paducah, and possibly a buggy factory, and expect to have the details arranged by Monday, and will then, if it is fully decided, will be pleased to tell you about it."

This is the big factory mentioned in the Sun some weeks ago as an industry to be established here in the future. Mr. Gardner was today in conference with local men interested in the project, and it seems from his talk, although he did not make a positive statement to that effect, that he intends to locate not only the wheel factory mentioned before, but a buggy factory as well. The factory alone is to cost about \$100,000, and several hundred men will be employed in it. The buggy factory, if he decides to add this to the other, will employ several hundred more.

The site that Mr. Gardner will probably select is near Little's Spoke factory, southwest of the city.

Mr. Gardner is president of the Missouri Athletic Club, and it is said of him that with the last year different employes of his have fallen short in their accounts to the extent of \$5,000 and he refused to appear in court to prosecute them. He says there is a difference between the fellow who steals and the fellow who "borrows" expecting to pay back, and there is also the fellow who may take to aid a sick mother, or wife or save the life of a dying child. "Why, they could eat up my fortune before I'd raise my hand against such offenders," he is quoted as having said. He states that one of his most trusted employes was once caught in the act of taking ten dollars from a pay envelope.

The President of Nicaragua, Salvador and Honduras will hold a peace conference.

Hayes' Beechwood Emulso-Hypo With Iron Makes Fat, Strength, Blood, Bone and Muscle.

If you are tired, broken down, despondent, worn out, pale, losing flesh, have no energy, do not feel like rising in the morning for the day's work, you need a bottle of this wonderful medicine. Do you want good rich red blood? Do you want the bloom to come back to the cheek? Are you convalescing after having fever, pneumonia or measles? Then you ought to take a bottle of EMULSO-HYPO. Its medicinal food that reaches every tissue in the body and builds you up. Taken in a little wine its as pleasant as cough syrup.

Read what the editor of the Meridian Star of Mississippi, A. G. Davis, writes under date of April 8:

"My mother took the Emulso-Hypo and has been greatly benefited. She is in better health than she has been in years."

J. W. Russell, county court clerk of Hickman county, Tenn., writes:

"My wife has used several bottles of Emulso-Hypo with Iron and has been wonderfully improved. I can conscientiously recommend it for all lung trouble."

Rev. G. T. Sullivan, presiding elder of the Memphis district, writes under date of Dec. 1, 1903:

"My daughter, whose system was very much run down, has been taking your Beechwood Emulso-Hypo with Iron, and has improved so much with one bottle I have no doubt by continuance she will be fully restored in her nerve forces. I am delighted with the results and shall continue her on it. Wishing you prosperity, I am, yours truly, G. T. SULLIVAN."

FAIR ASSOCIATION TO BE ORGANIZED

Paducah to Have Real County Fairs Hereafter.

A Meeting to Be Held at Hotel Lagomarsino Next Week to Organize \$10,000 Company.

NEW GROUNDS MAY BE BOUGHT

Paducah is to have a real, old county fair hereafter. Next week a meeting will be held at Hotel Lagomarsino to organize a fair association with a capital stock of \$10,000. About twenty-five of Paducah's prominent and most substantial men will be members of the association, and will at once prepare to give country fairs as they were given years ago, when the races here were equal to those witnessed in Memphis, Louisville and St. Louis.

Mr. L. A. Lagomarsino is one of the promoters. His experience with carnival companies, and his observation of the way the so-called fairs of the past two years have been received in Paducah, has convinced him and others that Paducah is the best fair town in this section of the country, and they have decided to organize an association.

The present fair grounds may be used if they can be bought on satisfactory terms. If not the new association will buy ground somewhere else on the car lines. There is nothing to the present fair grounds of much value except the ground itself, anyhow, and it may possibly turn out cheaper to purchase new

grounds.

This will all be determined later. It is the intention of the new association to have first class races with generous purses, exhibits, and in fact, everything essential to a real county fair, with real races and everything on the square.

The officers of the association will at once proceed to get things in shape.

They expect to have the annual carnivals on the fair grounds in the spring, as there is now no suitable site large enough in Paducah, and the fair and races in the fall.

Paducah last fair association went under because it was not permitted to be given as other fairs. A real fair, says the promoters of the new association, will pay well. Paducah has every county between Paducah and St. Louis, Paducah and Evansville, Paducah and Louisville and Paducah and Memphis, to draw from.

"If we give them first-class races and attractions," remarked one of the promoters this morning, "We'll get the people, and that's what we intend to do."

The exact date for the meeting has not been fixed, but it will be about the middle of next week.

BAND CONCERTS.

Prof. John Dean and wife have returned from St. Louis after attending the fair and tonight Prof. Dean will give another big concert on lower Broadway with his band. Several solos and selections by local composers will be played.

Tomorrow afternoon at Wallace park the Deal band will give a Sunday afternoon concert. These have proven popular and a good program has been arranged.

—Rainfall for this section has been less than half an inch since yesterday morning.

There is no profit in praying for profit alone.

PADUCAH IS AHEAD.

HAS FURNISHED THE REFORM SCHOOL WITH THE MOST CHILDREN.

Deputy Sheriff Joseph Wood, of McCracken county, today brought Charles Burns, a young white boy of Paducah, to the House of Reform in this county, where he will be kept until he is twenty-one years of age, says a Lexington dispatch. Young Burns has been much trouble to his parents, who decided to have him sent to the school for several years. Of all the children, both boys and girls, now confined in the reform school, a big majority of them are from the western part of the state, Paducah heading the list of cities that have sent children here to be raised, owing to the inability of their parents to bring them up properly.

RHEUMATISM.

When pains or irritation exist on any part of the body, the application of Ballard's Snow Liniment gives prompt relief. E. W. Sullivan, Prop., Sullivan House, El Reno, O., writes, June 6, 1902: "I take pleasure in recommending Ballard's Snow Liniment to all who are afflicted with rheumatism. It is the only remedy I have found that gives immediate relief." 25c, 50c, \$1.00. DuBois, Kolb & Co.

—The L. A. L. team will go to Princeton Sunday to play, and Short and Hays will be the battery for the L. A. L's. This is Paducah's strongest amateur team and will give the Princeton boys a hard fight.

Heavy rains have broken the long drought in Western Kentucky.

BACK HOME

ALLEGED SWINDLER FROM OHIO TAKEN THROUGH TODAY.

Sheriff C. F. Vandervort, of Wellington, Clinton County, Ohio, passed through the city today at noon enroute home from Paris, Tenn., with William J. Erwin, of Cincinnati, wanted at Blandchester, Ohio for arson.

With the Ohio officer came Marshal Charles McNutt, of Mayfield, who assisted in effecting Erwin's arrest. Marshal McNutt passed through the city several days ago and went south on the N. C. & St. L. road. He and Sheriff Vandervort located Erwin and soon had him under arrest.

The sheriff had the necessary papers to take Erwin back to Ohio and left at noon with his prisoner. He got off the N. C. & St. L. train at 1 o'clock, and boarded the I. C. train two minutes later, making direct connections.

Erwin is accused of burning houses in Blandchester for insurance, and is said to have worked with one woman and two men, who are still at large, when the authorities got after the party the members separated and Erwin is the first to be arrested.

NO TRIAL

JOHN STEELE WAIVED EXAMINATION AT BENTON.

Today the trial of John Steele for forgery was to come up at Benton, and this morning Officer Aaron Hurley who made the arrest, Captain M. A. McCawley, of Brookport, whose name was forged and Mr. Lee Robertson, who runs the Tony Faust, where Steele stayed, went to that city to appear as witnesses.

Steele, it will be remembered, had been laying about the city for some time and is alleged to have presented a forged check to Sam Neal at Gilbertsville. Neal discovered the forgery and came to Paducah and effected Steele's arrest.

The witnesses returned at noon, Steele having waived examination.

IS PERMANENT

Mr. Shedd, who has held the position of railway mail clerk for a number of years, and for several years has been running between Lexington and Jackson, was detailed to the position of assistant chief clerk August 10 by J. L. Bart, who was appointed chief clerk shortly before that time.

SAYS JAPS WILL CAPTURE PORT.

Chefu, Aug. 20.—The Japanese Consulate of Toen Tsin has arrived here and says that today's assault on Port Arthur by the Japanese is directed against the fortresses along the entire front port. "It is the Japanese supreme effort," said the Consul, "to which recent battles were preliminary. Firmly believe that Port Arthur will soon be in our possession."

—Considerable amusement was created at Third and Broadway yesterday afternoon when one of the blind men attacked the negro boy who was leading the other blind man and kicked him for saying that he was only playing blind. There were two blind men on the corner, one selling gum and the other playing a fiddle. The colored boy with the gum man said the fiddler wasn't blind, and whether he was or not he had no trouble catching the boy and giving him a kicking.
